

Charges

The charges you pay are used to pay the cost of running the Company, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	none
Exit charge	0.50%

This is the maximum that might be taken out of your money before it is invested and before the proceeds of your investment are paid out.

Charges taken from the Fund over a year

Ongoing charge	1.10%
----------------	-------

Charges taken from the Fund under specific conditions

Performance fee	none
-----------------	------

The **entry** and **exit charges** shown are maximum figures. In some cases you might pay less - you can find this out from your financial adviser. You may be charged a dilution levy on entry to or exit from the Company.

The ongoing charges figure is estimated based on the expected total of charges. This figure may vary from year to year. It excludes:

- Performance fees
- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Company when buying or selling units in another collective investment undertaking.

Investments in the Fund may be sold to meet ongoing charges and the value of your investment in the Fund would reduce. These charges reduce the potential growth of your investment.

*Exit charge: Shareholders may be subject to a redemption fee calculated at up to 0.50% of redemption monies where they redeem Shares within twelve months of acquiring those Shares.

For more information about charges, please see the Company's prospectus which is available at www.utifunds.com.sg.
